

## How to join the Northern Beaches Hospital Wi-Fi

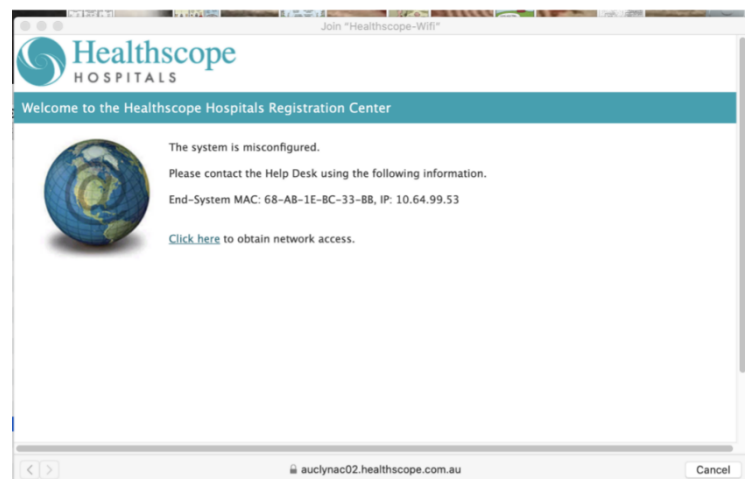

1. Open system settings
2. Select Wi-Fi (ensure Wi-Fi is enabled)
3. Select 'Healthscope-WiFi' which is usually the fourth option. Note: Do not select Healthscope-Clinical, \*Healthscope-Doctors, \*Healthscope-RTLS as your device be locked out of the network.
4. Do not select "automatically join this network" until after you have successfully joined.
5. Agree to the terms and conditions
6. You should then be able to connect to the internet using the Wifi

## Troubleshooting

If you see this:

1. Go to network settings
2. Disconnect all but the "Healthscope-WiFi" network.
3. Click forget this network
4. Turn off Wifi and turn it back on again
5. Select "Healthscope-WiFi" and follow the above steps.

Please speak to a staff member or the Unit Manager if you continue to experience issues, they will log an IT support request for you.
