Clinical details:

Relevant medications:

Our Gynaecology Clinic provides specialist diagnosis and management of all general gynaecological conditions including pelvic pain, ovarian cysts, abnormal uterine bleeding, abnormal cervical screening tests requiring colposcopy, contraception including outpatient IUD insertion and menopause.

Our Outpatients service will contact you to make an appointment.

You can eat and drink normally before your appointment.

Please bring a list of current medications and any scans or x-rays you have to the first appointment.

Your appointment is at our Outpatients Clinic on the Ground Floor of Northern Beaches Hospital.
