Dr Julian Yu is an Australian Trained Board Certified Specialist Orthopaedic Surgeon with an expertise in Hip Surgery, Knee Surgery and Trauma Surgery. He performs the cutting edge ROBOTIC HIP AND KNEE REPLACEMENT SURGERY (Makoplasty) as well as arthroscopy surgery of the knee.

Dr Yu utilises the latest technological advances and employs modern proven effective surgical techniques to treat his patients. This includes Minimally Invasive surgical techniques.

Julian is currently one of the early adapters of the technologically advanced Robotic Hip and Knee Replacement Surgery and is able to offer this technology to suitable patients. He also performs the latest surgical techniques in arthroscopic knee surgery including muscle preserving and minimally invasive ACL reconstruction surgery.

Having graduated from Medicine at the University of Newcastle in 2006, Julian completed his orthopaedic training in Sydney. As one of the youngest in his year, he further undertook 2 years of subspecialised training in hip and knee surgery in Edinburgh, UK, Lyon, France and Sydney.

Julian is bi-lingual and has a strong command of the Chinese (Mandarin) language.
