I am very excited to join the Peninsula Orthopaedic (PO) Team. I began my Orthopaedic career working on the Northern Beaches in 2008 following a move from the United Kingdom (UK). After completing my Australian Orthopaedic training in 2016, I spent six months in Bristol, UK, where I undertook a Fellowship in Foot and Ankle Surgery. I was fortunate to be able to return to the Northern Beaches to further my sub-specialty training in foot and ankle surgery.

I have a sub-specialty interest in adolescent and adult foot and ankle conditions. I particularly enjoy managing a variety of both traumatic (including sporting injuries) and non-traumatic conditions in patients ranging from the young, through to the older patient. Currently I participate in the Hornsby Ku-ring-gai and Sydney Adventist Hospital's on-call trauma roster where I manage primarily lower limb general orthopaedic trauma. I am looking forward to participating in the on-call trauma roster for the Northern Beaches Hospital.

- Dr O'Leary

Dr Edmund O'Leary is a fellowship trained Orthopaedic Surgeon with a sub-specialty interest in foot and ankle surgery, as well as orthopaedic trauma.

Dr O'Leary graduated from the University of Wales College of Medicine, UK. He went on to do his basic surgical training in Wales, attaining Membership of the Royal College of Surgeons of England, MRCS (Eng).

He completed his orthopaedic training in Sydney, being awarded the Fellowship of the Royal Australasian College of Surgeons (FRACS) in January 2016. He has since completed two sought after fellowships in foot and ankle surgery, the first in Bristol, UK, followed by the Sydney Foot and Ankle Orthopaedic Surgery Fellowship.
