

If you are experiencing any of the symptoms listed below:

1. Chest pain or discomfort/angina
2. Palpitations – racing or irregular heartbeat
3. Shortness of breath
4. Dizziness or fainting
5. Signs of heart failure – swollen ankles, unable to lie flat or waking short of breath

You should contact your GP or present to our emergency department for assessment.

 **If you require urgent attention dial 000 (triple zero) and ask for an ambulance.**

The heart of cardiac care on the Northern Beaches

of Care

 **Northern Beaches
Hospital**
by Healthscope

Heart disease remains the main cause of death in Australia. Northern Beaches Hospital is one of the leading cardiac hospitals in New South Wales, where the state's most sought after heart specialists are dedicating themselves to fighting this statistic every day.

It's safe to say that you, the patient, are at the heart of everything we do.

Our cardiology service

We provide comprehensive cardiology care, incorporating diagnostic, therapeutic and procedural services in our leading edge catheter labs and designated cardiac surgery theatre. All our cardiac services are supported by our coronary care unit and 20-bed intensive care unit.

 Our leading cardiologists and cardiothoracic surgeons can treat all heart conditions and related symptoms.

Procedures we offer

- Coronary angiography and stenting
- Insertion of pacemaker
- Coronary bypass surgery
- Structural heart surgery (aortic and mitral valve replacement)
- Cardiac valvular procedures
- CT coronary angiography (CTCA)
- Electrophysiology (EP) studies
- Heart rhythm ablation procedures
- DC cardioversion (DCCV)
- Transesophageal echocardiogram (TOE)
- Implantable loop recorder

The private experience

Expect better when you're with us. Patients enjoy the privacy of a large single room with ensuite and access to a private dining menu, created by our Executive Chef, with nutritious, delicious meal choices.

We provide our patients with additional services including:

- access to dietitian services
- perioperative medicine service – appointment with a specialist for people with complex medical issues to help assess suitability for surgery

You truly are our focus.
